

## SAY GOODBYE TO HAIRLOSS: Regrow your Hair

Designed with advanced science and technology, the Theradome® LH80 PRO is a next-generation hair restoration device clinically proven to deliver safe and effective treatment.

"After almost a year of treatment, my ponytail, formerly as thin as my little finger, has become as thick as my thumb. As I cannot risk a break in treatment in the event my THERADOME should ever fail to work, it is better to always keep a new one in stock for the rest of my life."

I.J.

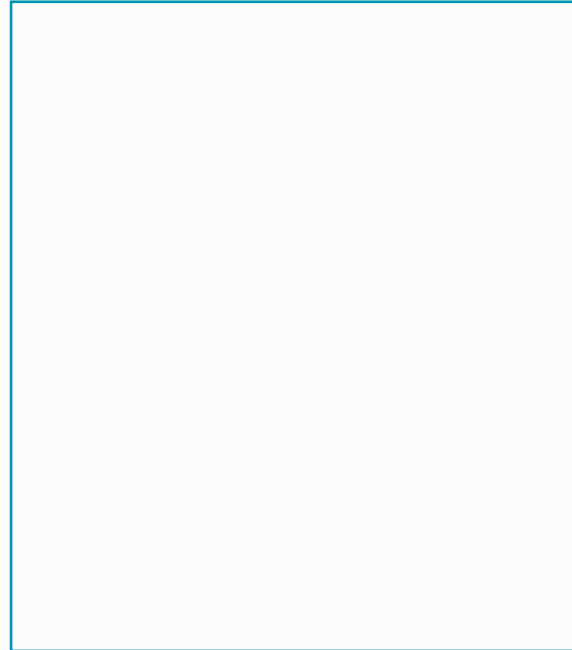

"Feedback from my patients on the use of the Theradome is that their hair loss decreases and the quality of their hair becomes thicker and healthier."

Dr. Koher

"The Theradome helmet truly works! Not only do I have more hair, the hair that I have is stronger and healthier."

Liz M.

Theradome® LH80 PRO

World's Most Technologically Advanced  
Laser Hair Therapy Device for Home Use.

Hair loss affects over 1.5 billion people worldwide, including more than 80 million in the U.S. alone.

Finally, there is a solution: advanced clinical strength laser therapy – easy, comfortable, convenient and in the privacy of your own home.

## True Convenience

Requiring only two, 20-minute sessions per week, and with its hands-free, cordless features, the Theradome® LH80 PRO gives you the freedom to keep pace with your busy schedule.

## Laser Technology

Biomedically designed lasers are key to treating hair loss. Our advanced, proprietary laser technology delivers maximum energy (> 440 joules per treatment) and penetrates the scalp at a wavelength optimized for clinical hair restoration ( $678 \pm 8$  nm). With its 80 high-efficiency lasers, the Theradome® delivers therapeutic power while providing a maximum scalp coverage of 582 cm<sup>2</sup> and generating less than 1° C of heat per 20-minute session.

## The Results

Satisfied customers. High compliance rates. No prescriptions. Only two 20-minute sessions in your home. You will love the ease, convenience, affordability and superior results of Theradome®.
